Shelf Management

The presentation of products is an important factor in the retail shop. Especially the organisation of the shelves must make the dispensing of items easy for the shopper. Shelf organisation is a crucial factor to gain turnover. Highlighting brands and products need clear concepts. Shelf dividers, mechanical facings with advertisement must be combined with the appropriate pusher systems.

Prima 2 PET Dividers

- For a clean and orderly display of products on the shelf and optimization of empty spaces in order to place more products on the shelves, the dividers, with a beautiful and elegant design, are the ideal solution.
- Front and back fixing points for added stability
- With two fixing and several breaking points to adjust the length.
- Clip-on Breakable Divider 285/458 with T Front

Roller Basket

Shopping made easier than ever – this handy roller basket combines the best of hand basket shopping without the effort. These sturdy and easy alternatives are also best for supermarkets where the aisles are too narrow for trolleys to pass through at ease. When not in service, the Roller Basket can be stacked to a good height, saving on floorspace which makes it ideal for placing at store entry points without causing disruption to traffic flow.

Features,

- Light weight, modern design provides great utility
- Roller feature will boost basket sales
- Stackable to save floor space

Model	Roller Basket c/w Long Handle TLB-2
Size	H400 x L610L x W385mm

Shopping Cart

A series and RC series shopping cart with the herringbone base frame, provides simple and elegant structure and strong support capacity, also allows enough under leg spaces and anti theft function. The structure is insertable and stackable for easy storage and transporting. The trolleys equipped with quality swivel castors ensure quiet and smooth running.

- A stylish, open base frame of oval tubing which provides extra leg base.
- With its comfortable handle height the European style shopping trolley can be easily pushed, loaded and unloaded.
- Elegant base frame without rack is a most space-saving stacking design.
- Shopping trolley with child seat and standard handle bar.

A Series

A series shopping cart has ample space for a large shop and equipped with a child seat and safety belt as standard, this product allows for a safe and comfortable shopping experience for all the family.

Space-saving stacking

J Series (Basket Trolley)

The J series is the perfect blend of basket shopping and grocery carts. Allows customers that normally shop with hand baskets the convenience of a cart without the large size of a cart to maneuver through your store. Compact size just slightly wider than standard hand baskets allows cart access in most shopping aisles that otherwise would prohibit cart use. Perfect for very small stores and as an added convenience cart for large stores.

Plastic Pallets

The export pallets, light and economical to the reinforced food pallets made to handle heavy loads securely, a wide selection of plastic pallets is available. We offer you the most popular sizes, frequently used in most of the activity sectors we serve. Offering a good return on investment, due to there longevity and ease to maintain, you can choose the one that is most likely to serve you best and meet with your budget.

Environmental friendly plastic pallets

- Reuse the pallet many times
- Trade in end-of-life pallets back to us for recycling
- Support the 3R-concept of Reduce, Reuse & Recycle
- Reduce carbon footprint

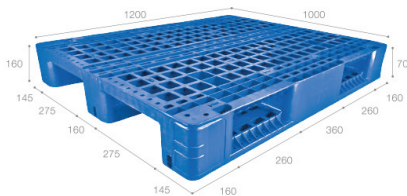

Operation

- No repairing.
- No cleaning of wood debris on factory floor.
- Less product damages.
- Less production down time.
- Less administrative works (no pallet treatment, reduce pallet ordering frequency etc.)
- Simply less hassle.

Heavy Duty Pallets

IntracoPallets® H series pallets are heavy duty pallets where the pallets have thick and strong structure. It is suitable for heavy load stacking and racking.

- Features - These pallets are heavy duty and their rib structure are thick and strong. Some are steel reinforced.
- Applications - They are suitable for heavy load (around 1000kg) even on racks. Loads must be cross-stacked.
- Storage - Stacking and racking.

Packing	1 pkt x 5pcs

Impulse Sealer

These small yet powerful units are probably the most ubiquitous packaging machines, and are used to seal bags for a great variety of industries and applications. They are affordable and easy to use, which makes them a great alternative for light-duty bag sealing applications.

Description	Impulse Sealer 12" 300mm
Replacement parts 1.	Impulse Sealer Heater (12")
Replacement parts 2.	Telfon fabric and Heating element part

Bag Sealer

- To be used with tapes, these sealers provide a quick and easy way to seal poly bags, most notably bread bags. The Bag Sealers are very easy to use.
- For sealing bags of packaged foods, etc.

Model	BS 2200
Description	Bag Sealer (Nichiban)
Origin	Japan

Farm Bundling

- Store front dispenser for binding tape. For bundling in small quantities in supermarkets or stores, or for bundling small vegetables at the production area, etc.

Model	V300
Description	Farm Bundling (Vege Tape Dispenser)
Size	L240 x W90 x H170mm
Weight	2.1kg
Origin	Japan

Wrapping Machine

- Teflon coating on the surface of the film cutter and the heated board easy to clean.
- Space between heated board and packer body, avoid the body of packer to be heated.
- Easy to use, high reliability.
- This machine is widely used to pack fruit, vegetable, fish, meat And cold drink to keep fresh.

Description **ISTE Wrapping Machine**

Replacement parts 1. Element cutter

Replacement parts 2. Hot plate

Insect Killer

Mushipon Insect Light Trap

Unlike conventional Insect trap which uses high voltage to electrocute the pests, Mushipon uses UV Light attraction and its sticky gel tape with resin glue to capture the pests therefore resulting in an odorless and safe environment.

Suitable for:

All Food & Beverages processing manufactures, Hospital , Supermarket, Clean room, Chemical, Pharmaceutical, Ships, Hotel, Outdoor Cafes and restaurants, Bakery, Offices and many more!

- No harmful substances; safe to use
- Easy to store and install
- Strong adhesive power makes catching insects of any size easy.

Model **MP - 2000M**

Tape Hanging type (Metal)

2 Sided Tape (2pieces)

Size W705 x L85 x H235mm

Area of Coverage 30-50 m2

Weight 3.5kg

Material Metal powder coated

Voltage 240V

Replacement parts 1. Mushipon Insect-catching Tapes (Gel Tape)

Packaging 5pcs / box

Replacement parts 2. Insect Luring lamp (UV light)

Lure flying insects by 365 nm light.

Insect Trap

Gondola Shelving System

Gondola Shelving is the classic store shelving workhorse most commonly featured in the retail industry. Gondola shelving units are designed to maximize floor space, adding flow and direction to foot traffic and encouraging customers to browse throughout the whole shop, which can increase sales and impulse buys. We provide steel retail shop shelving and supermarket gondola shelf units, with a wide variety of shapes, sizes, color and styles to choose from.
